## Education

### Ph.D. degree in Physics

Ph.D. degree in Physics obtained from department of Science, Systems and Models (NSM), Roskilde University (RUC), 15.03.2007

The project was carried out in the period 01.2004 – 12.2006 at: Center for Fundamental Research: Metal Structures in Four Dimensions, Materials Research Department, Risø National Laboratory.

### Master degree in Physics and Mathematics, M.Sc.

Master degree in Physics and Mathematics (Cand. Scient. i fysik og matematik) obtained from Department of Mathematics and Physics (IMFUFA), Roskilde University (RUC), 16.09.2003.

### Guest Student at the Danish Technical University of Denmark (DTU)

Course on singularity theory, 09.2001 – 12.2001.

Project co-supervised by a professor at DTU and a professor at Roskilde university, 09.2001 – 06.2002.

The project counts as part of my master's studies at Roskilde University.

### Bachelor Degree in Physics and Mathematics, B.Sc.

Bachelor Degree in Physics and Mathematics obtained from Department of Mathematics and Physics (IMFUFA), Roskilde University (RUC), 03.2000.

## Employments

### Associate Professor

Associate Professor in experimental Physics.

National Research Foundation Center "Glass and Time" and the research team IMFUFA at the department of Science, Systems and Models, Roskilde University (RUC), 06.2010 and continued.

### Postdoc

Postdoc of experimental Physics.

National Research Foundation Center "Glass and Time" and the research team IMFUFA at the department of Science, Systems and Models, Roskilde University (RUC), 04.2007 – 06.2010.

### Ph.D. student

Center for Fundamental Research: Metal Structures in Four Dimensions, Materials Research Department, Risø National Laboratory, 01.2004 – 12.2006.
